After careful deliberation and consultation with higher administration, the decision has been made to move Pharmacology I and Pharmacology II to the Anatomy and Physiology Academic Program effective January 15, 2010. The Academic Program will now be called Anatomy, Physiology and Pharmacology.

Physiology and Pharmacology need to be closely integrated. In many of the US schools Physiology and Pharmacology are located in the same department. The two credit course in Toxicology will be taught in the sixth term and moved to the Large Animal Medicine and Surgery Academic Program.

The following appointments are effective January 1, 2010:

1. Dr. Eduardo Durante – Associate Dean, Faculty and Academic Programs
2. Dr. Lisa Lunn – Director, LAMS Academic Program
3. Dr. Rajesh Banga – Assistant Dean of Students, SVM
4. Dr. Hugh Ferguson – Director, SVM Marine Program
5. Dr. Cecil Brownie – Director, SVM Toxicology Laboratory
