“SGU's Energy, Waste, and Bioethics Initiatives: Shall we Switch Off?”

Presented by:
Dr. Cheryl Macpherson & Dr. Joanna Rayner

In this presentation, Dr. Macpherson and Dr. Rayner will address impacts of carbon emissions on infectious disease and environmental resources for health. Ethical concerns about the causes and impacts of, and responses to, carbon emissions will be discussed. Responsibilities of SGU as a premier Caribbean institution will be considered in light of campus initiatives to reduce energy use and conserve waste.

Wednesday 31 October, 2012
12:00 — 1:00 pm
WINDREF Conference Room
All are welcome!
